

## Local services from the ANCHO team in Irvine, with support from Cairn

As part of the new partnership ANCHO will retain their own identity as a registered social landlord and your tenancy rights are protected.

The ANCHO team will continue to be based in an office in Irvine, with the same team working to provide you with high standards of service.

Cairn will provide the ANCHO team with additional help and support with things like finance, human resources and I.T. This means the ANCHO team can be more efficient, and spend more of their time out in your communities, meeting with tenants and providing better services.

When the ballot opens – vote **'yes'** for the partnership with Cairn
